Perimeter Fencing

Choice of high security welded mesh panel or vertical railing systems

Features & Benefits

- We work with the UK's leading fence manufacturers offering a wide range of vandal proof fencing systems
- To achieve both security & aesthetics we offer a variety of corrosion resistant materials that are fully customisable & appropriate for contemporary or more traditional settings
- Panel to post fittings that combine style with security
- Posts that can be adapted to house security cameras or light sources for additional protection
- A choice of pales & toppings which act as a highly effective deterrent and barrier to intruders
- Robust designs with anti-climb and anti-scale construction on both sides

Applications

- Business & Retail Premises
- Car Parks
- High Security Sites
- Hospitals
- Housing
- Play Areas
- Public Spaces
- Schools & Universities
