ROBOSIGN

**SIMPLE TRAFFIC
CONTROL SOLUTION**

**A HISTORY OF
INNOVATION** >>>

ROBOSIGN

Robosign is ideal when a simple traffic control solution is required. Compact, easy to transport, operational within minutes and provides increased operator safety. Just one operator is required to manage and control the flow at both ends of the work zone. The system is fully radio controlled and operates with just one button press. Battery operated system provides up to 100 hours of continuous operation. The remote control handset has rechargeable batteries which last up to 12 hours continuous use.

- » Remote manually controlled Stop/Go signs
- » Battery powered handset and base
- » One operator control of two Stop/Go signs
- » Enables safe operation, away from the work zone
- » Single button operation
- » Can be operated with only one base unit if required
