

DIESEL POWERED EHHNK5

MQ WHITEMAN

What is your
reputation riding on?

The **EHHNK5** ride-on power trowel delivers all of the features contractors demand. This Kohler KDW1404 diesel engine delivers the power, durability and performance required for today's ever changing customer needs.

LED lighting provides state of the art illumination for night time or inside work

Fork truck pockets built into an ergonomically designed seat frame

- **Powerful 35 HP diesel** engine from Kohler delivers the high torque needed for panning while having the high rotor speed needed for finishing
- **Continuously Variable Transmission (CVT)** provides superior performance by constantly adjusting the drive ratio to obtain torque and speed during all phases of finishing from low speed torque to high speed burnishing
- **Helical Gearboxes** offer the industries' most efficient, coolest-running, trouble-free design on the market today. This helical gearbox system is backed with a three year warranty
- **Spider Assemblies** can be economically rebuilt and feature long lasting wear plates and hubs
- **Twin Pitch Control** enables the operator to simultaneously control the pitch of both rotors with minimal effort while also allowing the individual pitch adjustment of each set of rotors

Model	EHHNK5
Engine	Kohler KDW1404
HP (kW)	35 (26)
Blades per rotor	5
Rotor RPM	0-180
Path Width in. (cm)	92 (233)
Fuel Capacity gal. (l)	7.5 (28.3)
LxWxH in. (cm)	95x48x59 (318x165x145)
Operating weight lb. (kg)	1403 (636.39)
Optional Wheel Kit	EMR2 or EMR3
