CONSTRUCTION EQUIPMENT

Construction Equipment, Part Sales,
Accessories & Servicing

Vibrating Plates

Mikasa is one of the world's leading manufacturers of durable lightweight compaction equipment and have been supplying the Irish marketplace for over 45 years. Their Vibrating Plates are complete with Honda Engines, Anti -Vibration Handles and a choice of 14", 18" & 20" Base Plates are available.

Tamping Rammers

Mikasa have built a reputation by offering the lowest maintenance, most innovative and productive Rammers in the business. Powered by Honda 4 stroke engines they offer 11", 10" and 8" shoe widths.

Road, Masonry & Tile Saws

Norton Clipper Saws offer outstanding cutting performance and easy handling. Made to suit a wide variety of applications in the construction industry from wet and dry cutting of asphalt or concrete to cutting materials including natural stone slabs, block paving, bricks, tiles and blocks.

Cable Avoidance Tools

C.Scope cable avoidance tools, metal detectors and signal generators are specifically designed to locate and trace buried pipes and cables. They have important safety and cost saving implications in the civil engineering and utility industries, avoiding personal injury, cable strikes, costly repairs and disruption to work.

Earth Drills, Augers, Trenchers, Stump Planers & Hedge Cutters

Established in Europe in 1998 Auger Torque have become recognised as a leading supplier of hydraulic attachments such as earth drills, augers, trenchers, stump planers and hedge cutters.

Hydraulic Breakers

The KSB breaker series, for excavators from 0.5-12t, benefits from a distinctive 'mono bloc' design, manufactured in a single piece and without any tie rods – a feature that makes the structure extremely durable and resistant to leverage during operation. The tapered shape also ensures excellent visibility during operation, allowing the operator to work close to walls and other structures.

Cement Mixers

The Baromix Commodore range offers 3 sizes of large heavy duty site mixers designed for prolonged site and rental use. Powered by Yanmar electric start diesel engines, they are built to withstand the toughest conditions and mix large batches of concrete and mortar.

Half Bag Mixers

The Belle Minimix 150 range of half bag mixers are the toughest in the market. Available with a Honda petrol engine or 240v and 110v electric motors. Sold with a stand, they mix a full barrow load of concrete or mortar.

Air Products

The John Macdonald Group has been a leading manufacturer of air driven products since 1884. Their range of vibration reduced air tools include breakers, demolition tools, scabblers & drills.

Hand Held Hydraulic Equipment

JCB offer an extensive range of Powerpacks and Tools including Breakers, Submersible Water Pumps, Disc Cutters and Drills. The Powerpacks are renowned for their power, productivity and versatility. The JCB Breakers offer class leading performance with the lowest level hand arm vibration.

Diamond Blades

These diverse and versatile blades can be used with a variety of different machines that include angle grinders, hand held saws, floor saws, masonry saws, tile saws, and wall saws. Whether you are cutting concrete, building materials, bricks or asphalt, Norton Clipper have a high performance Diamond Blade that is ideal for the application.

Concrete Equipment

Multiquip offer an extensive range of concrete preparation and finishing products including engine, electric and air driven Vibrating Pokers, walk behind and ride on Power Trowels, Bull Floats and Magic Screeds.

IQ Saws

All IQ Power Tools combine rugged durability, innovative design and essential health and safety benefits. The saw range collects 99.5% of the dust from cutting. Cutting with no dust, contractors can now save money, eliminate the mess and pain of dust problems and protect the health of their workers. Additional benefits are that you can cut right where you work so you can increase efficiency and finish the job faster. No dust. No water. No Problem.

Portable Traffic Lights

Pike Signals have been manufacturing traffic light technology in the UK for over 35 years. Their new EVO range with improved functionality and reliability offers innovative traffic light systems from multi phase to the manually operated Robo signs.

Vibrating Pokers

Technoflex are a Spanish company who have been manufacturing high quality Vibrating Pokers for the Concrete and Construction industries since 1972. Their range includes electric, air and engine driven pokers and has numerous Poker Head sizes and Transmission Flex lengths available.

Water Pumps

Manufactured in the UK, Hilta provide a range of 2" & 3" Diaphragm Pumps with petrol & diesel engines and a 4" Road Tow Automatic Priming Centrifugal Pump with diesel engine & fully silenced canopy.

Portable Lighting & Protective Cases

Peli's battery powered Remote Area Lighting Systems provide mobile emergency lighting for job sites where mains power is not available. Peli also provide high spec protective cases which are watertight, dust proof, crush proof, corrosion proof and buoyant.

Hydraulic Core Drills

UK manufacturer Xcalibre are a global supplier of hand held Hydraulic Core Drills. Their Magnum range provides unrivalled power for both wet & dry drilling applications with little or no kick or snatch due to the inbuilt pressure / torque limiting valve.

Generators

The Stephill name is synonymous with quality and reliability and the companies strict policy in only using premium brand components in its products has firmly cemented its position as the market leading supplier of portable generators to plant and tool hire companies both large and small.

Cobra Rods

The Cobra Rodding System gives a compact and labour saving solution when installing cables in ducts, threading draw ropes through pipes, surveying drains with CCTV cameras or when using with a Sonde transmitter for locating pipes and blockages. The reinforced fibreglass rods are available in 4mm to 14mm diameters and 30m to 500m lengths.

Generators, Water Pumps & Engines

The petrol Generators range from a compact quiet 1.6kw inverter Generator to a 6kw electric start model. The Water Pumps range from a 1" pump delivering 8,000 litres per hour to a 3" pump delivering 48,000 litres per hour. The Loncin replacement engine range will suit any petrol powered 4 stroke machine from 1.8hp to 19.7hp.
