Fast Light and Efficient.

Magic Screed

breezemount

The industry favourite Magic Screed is a levelling device that will strike off concrete, sink aggregates and fibres and float the surface.

Magic Screed doesn't need any form work, it rides directly on your wet screeds.

Fast light and efficient.

The Honda GX35 engine makes this machine quiet, lightweight and environmentally friendly plus with its precision throttle handle it makes getting the perfect operating speed easy.

The Magic Screed also has a unique anti-vibration system which greatly reduces the vibration felt on the handles increasing operator control and comfort.

The blades are also a unique design allowing the user to both cut and smooth concrete simultaneously

Varying blade sizes are available these include:

1.22m (4ft), 1.80m (6ft), 2.44m (8ft), 3.00m (10ft), 3.66m (12ft), 4.27m (14ft), 4.88m (16ft)

The blade is quickly removed in 2 minute's saving the user time and effort.
